

WE MUST ACT NOW

In South Africa, the French oil & gas major 'TotalEnergies' is about to start yet another destructive project despite specific climate experts' recommendations to steer clear from new fossil fuel investments. [The Green Connection](#) and [BLOOM](#) have launched the [#OceanTotalDestruction](#) campaign and call on TotalEnergies to stop to its harmful offshore oil & gas projects in South Africa. We encourage environmental defenders and the public to support the campaign on social media, to stop offshore oil and gas exploration.
